IN MEMORIAM SHAUN RENI OUILLETTE

1972 - 1986

We, the Class of 1990, remember Shaun, our friend and classmate.

For those of us with whom he worked and played he was our good friend. We remember:

- his love for us and his loyalty to family and friends;
- his caring for others;
- his love for his church;
- his generous contribution of time at the Massachusetts Hospital School;
- his willingness to help others;
- his smile that brightened the lives of others;
- his good sportsmanship.

We knew him and loved him in life. We will not forget him. He lives in spirit.

DEDICATION

RALPH A. MASCIARELLI

The Class of 1990 proudly dedicates our yearbook, ECHO '90 to Mr. Ralph Masciarelli.

"Mush" worked tirelessly for our class and for all the young people of Canton. He was with us at our games, our practices, our school events. He was there on the playing fields, in the gym, and in the corridors and he took every opportunity to offer all a good word or a kind gesture.

"Mush" was a perfect role model for us all, adhering to the principles of loyal-ty, sincerity and altruism. We have all been enriched by having had Mr. Masciarelli as our friend.

The Canton High School math team continues to dominate in league, state and New England Competitions. For fifteen consecutive years, the team has won the Greater Boston Math League and the Massachusetts Math League titles. Nine teen hundred ninety will be a significant year for the math team as it will make ten consecutive years of winning the State and the New England titles — a decade of championships. Many of the students on the team have been recognized not only at the league level, but also at the state and regional levels.

The members of the team have also earned many individuals accomplishments. In the state-wide Math Olympiad. Twelve students placed in the top five percent. Usually twelve CHS students compete for the All Star Eastern Massachusetts team of the American Region Math League each year. Canton has more students on the regional all-star team than any other high school in the Commonwealth. Canton High's math team has also won the Worchester Polytechnical Institute invitational competition two years in a row.

These accomplishments would not be possible without the coaching staff of Martin Badoian, Veronica Powers, and William Sweeney. Their help and motivation insure continued success.

The French, German, and Spanish Clubs have provided the students and Canton High with an opportunity to explore the life and culture of foreign countries through speakers, food festivals, and vistors from other countries.

This year the families in Canton had the opportunity to host students from France, Germany, and Spain and share in the cultural experience along with the students at Canton High. The exchange programs have been very successful and involve many students at Canton High in the experience.
